Join the Florida Pavilion at the Singapore Airshow 2016!

Singapore Air Show is Asia's largest aerospace and defense exhibition, hosting 1,018 exhibitors from 76 countries and more than 45,000 visitor attendees. With major announcements from Airbus, Embraer, Boeing and Rolls-Royce, 65 of the top 100 aerospace companies will be represented at the show. In 2014, the Florida Pavilion was the largest U.S. state represented at the exhibition. Twenty-two Florida aerospace/aviation companies reported more than \$67 million in expected export sales.

Why the Florida Pavilion?

This Enterprise Florida Inc. (EFI) led-trip provides exposure in the Asia-Pacific region for Florida aviation and aerospace companies. With public tickets completely sold out in 2014, this is one event your company doesn't want to miss. EFI has multiple booth options to choose from, private meeting rooms and a lounge area. Your company will be sure to stand out amongst the crowd.

The Singapore air show is the major aviation event in Southeast Asia. The new contacts that were made will turn into additional sales for us into this region. Enterprise Florida is the leader nationwide promoting it's small businesses. Without the grant we received we very well might not have participated in this event.

- Phil Cox, Vice of Sales – Loos & Co.
